About the Organization:

As one of the largest medical centers in Mississippi with more than 10,000 employees and 500 physicians, this organization has strong leadership and a commanding presence in the community and statewide. Physicians here will have access to top-tier clinical facilities, a medical staff with an extensive array of specialties and an academic focus to the delivery of medical care.

About the Area:

Distinct with southern charm, Jackson is the premier location for Mississippi's arts, culinary and cultural scene. Our residents enjoy a distinct character that is drawing a revival of new restaurants, artist, entrepreneurs and others to this beautiful region. You will find that our southern hospitality is lively, and our community is a special place to live, work and raise a family.
